

## *NASoM Activities for 2021*

---

On-going Projects in conjunction with ERA:

- Noise nodes in public areas for real-time assessment.
- Noise thresholds in batching plants

Invites to Radio talk shows

Topics discussed during the program:

Noise Regulations , health hazard from exposure to noise, avoiding noise exposure, how to make noise nuisance reports

The Association posts articles/ comment concerning noise pollution on the local newspapers.

Each year NASoM receive several requests for assistance. Support is either through mail or by conducting preliminary noise reports. Ongoing reports:

- Guardian Angel School – students with special needs
  - Objective: Noise reduction from road traffic
- Malta Freeports – Sitting on the Environment Committee
  - Objective: mitigation of noise pollution to sensitive receptors
- Assistance to the Residents in Sliema & Valletta
  - Objective: mitigation loud noise from amplified music
