

## NASoM Activities for 2017

---

The Association had meetings with the, TM CEO, V18 Chairman, Police Asst. Commissioners, Local Councils and other stakeholders; in order to discuss the various noise nuisances' complaints it receives from the residents' and ways and means to lessen the hardship forced on the residents'.

Projects in conjunction with UOM:

- Noise barometer in classrooms
- Noise nodes in public areas with remote control and monitoring

Presentations were delivered to; UOM- Marketing Dept, Local Councils and Secondary School, regarding Noise & Your Health

The Association attended invites on the local Radio stations to bring in focus the subject; 'Community living in Harmony' – respect your neighbour

The Association, as in previous years, received a considerable amount of requests for assistance against noise nuisance.

The Association's complaint of the improper application of EU Regulations by the local Authorities had been presented to the EU commission through the joint offices of the Maltese and European Ombudsman.

During 2017 two students sitting for Bachelor of Science and Masters in Environmental studies have joined the Association's committee
